Generative AI represents an enormous opportunity

- Reduce busywork**
Radically rethink your workday. Delegate tasks to AI and protect focus time for the creative work that leads to innovation. Produce high-quality work in half the time.
- End information overload**
Quit mentally absorbing unnecessary information. Get answers instantly, identify only the important information, and restructure your day for success.
- Work smarter, not harder**
Quit spending so much time in your inbox. And make meetings more efficient with AI-powered intelligent meeting recaps, transcripts, and recordings.

Introducing Copilot for Microsoft 365: A whole new way to work

Copilot for Microsoft 365 will help lighten the load

Built on Microsoft's comprehensive approach

- Security
- Compliance
- Responsible AI
- Privacy

Embedded across Microsoft 365 apps

- Teams
- Outlook
- Word
- Excel
- PowerPoint

Turn words into a powerful productivity tool

Natural Language

- Large Language Models
- Microsoft Graph - Your Data
- Microsoft 365 Apps

Embed AI-powered Copilot into the apps you use every day

- Amplify creativity**
Be more creative in Word, bring ideas to life in PowerPoint, analyze trends in Excel, lighten the load in Outlook, summarize conversations in Teams, and more.
- Unlock productivity**
Unlock data and knowledge across your organization. Combine Large Language Models with your data and turn your words into the most powerful productivity tool on the planet.
- Trust in responsible AI**
Count on Microsoft's comprehensive approach to security, compliance, privacy, identity, and responsible AI. Configure access and governance policies to keep data protected.
